Portable Power

Doosan P-600B Air Compressor is a single stage, oil injected, rotary screw compressor delivering 16.42 cu.m / min (580 cfm) free air delivery at 7.03 Kg/Cm.Sq.(100 psig) working pressure. The compressor unit is directly coupled to the state of the art prime mover model 6BTA5.9C water cooled diesel engine, through a flexible coupling. The complete unit is enclosed in sheet metal canopy and mounted on heavy duty two wheel undercarriage provided with tow bar and adjustable support Jack.

Specifications:

Free Air Delivery	16.42 cu.m./min (580 cfm)
Normal Working Pressure	7.03 Kg/Cm.Sq. (100 psig)
Engine Model	6BTA5.9C
Make	Cummins
Available Power (Gross)	169 hp @ 2100 rpm

Dimensions & Weight:

Length	4060 mm
Width	1850 mm
Height (with Silencer)	2100 mm
Operating Weight	2320 kgs

Instrumentation

- Discharge pressure gauge
- Tank pressure gauge
- Discharge temperature gauge
- Engine oil pressure gauge
- Engine water temperature gauge
- Tachometer
- Hour meter
- No charge indicator
- Air filter vacuum indicator (Engine/Airend)

Safety

- High air temperature shut down
- Low engine oil pressure shut down
- High engine water temperature shut down
- Safety valve on separator tank
